Welcome to the **Cornering Confidence** program. Please read this information thoroughly to understand the goals and expectations of the courses provided by Street Skills LLC.

Registered participants may receive additional information or clarifications before the course. Jon’s goal is to provide you with more than just a fun skill-building experience. Street Skills LLC aims to build a community of skill-seeking riders and friendships.

Student Lesson Information and Expectations

General Information

- **Rider safety is the #1 priority.** Keep in mind that the stipulations included in this document are to ensure we all go home healthy and happy. Mishaps impact everyone, not just the afflicted rider.
- Street Skills LLC “Trail Braking Camp” private lessons are parking lot training events. They are condensed learning opportunities designed to increase confidence and proficiency in a short period of time. Participants will be presented with a progression of skills and techniques for reflection and further practice. Riders will a) *learn* something new, b) *refresh* previously learned skills, or c) *affirm* they ride with advanced skills.
- Street Skills LLC lessons are different from other lot or track course providers in the following ways:
 - Class size is 1-2 students (if 2, sharing one motorcycle).
 - Typical lessons are 90 minute sessions, but can be reserved in multiple sessions.
 - Small displacement street legal motorcycle is provided to students.
 - The **Cornering Confidence** lesson teaches strategies for exceptional motorcycle control, with less focus on situational awareness concepts.
- Participants should be over 18 and must have a valid motorcycle license endorsement.
- Max height: 6'6", Max weight: 275 lbs. (*Tip: sit on a Honda Grom or Kawasaki Z125 at a local dealer to see if you fit on the lesson bikes*)
- These lessons DO NOT teach fundamental riding skills. The MSF Basic RiderCourse is the best route for novice riders. Street Skills LLC private lessons are for riders with adequate riding experience that have solid foundation skills and are ready to increase proficiency.
- Participants may have a wide range of skill levels. Be courteous at all times.
- Questions, comments or concerns at any time during the lesson? Bring them to the Street Skills LLC staff immediately.

Instructional Methods

- The basic format of this lesson:
 - Start lesson discussing skills near, but off school fleet motorcycle(s) in a closed paved area
 - Ride the school provided motorcycle(s) and directly practice the skills discussed previously
 - Dismount and debrief previous riding session
 - Discuss next set of skills
 - Ride and repeat until conclusion of lesson

Pre-Lesson Statement and “Road Rules”
